SUBHASHISH BHATTACHARYA

Senior Cybersecurity Engineer

Pune, India • +91-8588883287 • subhashish53@gmail.com

Valid U.S. B1/B2 Visa (Till Dec 2034)

PROFESSIONAL SUMMARY

Cybersecurity professional with over 12 years of experience in the IT industry, specializing in securing complex infrastructures and mitigating evolving threats. Proven expertise in leading SOC operations, strengthening security frameworks, and driving effective incident response initiatives. Skilled at aligning cybersecurity strategy with business objectives and regulatory requirements. Hands-on experience with modern SIEM/SOAR platforms, zero-trust architectures, SASE frameworks, cloud security posture management, and AI-powered GRC solutions. Committed to delivering high-impact security solutions that enhance organizational resilience and long-term risk management.

CORE COMPETENCIES & SKILLS

SIEM / SOAR & SOC Platforms: Google Chronicle (SIEM & SOAR), IBM QRadar, McAfee ESM, Trellix ePolicy Orchestrator, Abstract Security, Torq SOAR

Network & Perimeter Security: Palo Alto IPS/NGFW (Panorama), Cato Networks (SASE), Infoblox BloxOne (DNS Security), Illumio ZTS, Fidelis

Endpoint & EDR: CrowdStrike Falcon, BeyondTrust Endpoint Privilege Management (Avecto Defendpoint)

Cloud Security: Prisma Cloud (CNAPP), Tenable.sc / Tenable.io, Qualys

Email & Identity Security: Proofpoint TAP & TRAP, Okta Admin Portal, BeyondTrust PAM

Threat Intelligence: MISP, SecurityScorecard, Feedly, Greymatter

Vulnerability Management: Qualys, Tenable, Prisma Cloud, CVSS-based Risk Assessment, Forensic Analysis, Security Auditing

Risk & Compliance: MetricStream (AI-Powered GRC), Risk Management, Remediation Tracking, ITIL V3

Monitoring & ITSM Tools: Grafana, ServiceNow, Remedy, AutoBCM, MISP

PROFESSIONAL EXPERIENCE

Sr. Cybersecurity Engineer | BMC Software India Private Limited *March 2021 – Present*

- Lead SOC analyst providing 24x7 incident response — detecting, containing, eradicating, and reporting on network breaches, malware infections, ransomware, and advanced persistent threats across a global enterprise environment.
- Architect and optimize SIEM detection rules and dashboards across Google Chronicle, IBM QRadar, and McAfee ESM, reducing mean time to detect (MTTD) and mean time to respond (MTTR).
- Operationalized Torq SOAR and Abstract Security platforms to automate SOC workflows, alert enrichment, and multi-tool orchestration — significantly increasing analyst efficiency and reducing manual toil.
- Deployed and manage Cato Networks SASE framework, consolidating network security and enabling secure remote access with integrated threat prevention across distributed users and sites.
- Leveraged SecurityScorecard for continuous third-party/supply-chain risk monitoring; used Feedly and Greymatter as threat intelligence feeds to proactively track emerging TTPs and IOCs.
- Manage cloud security posture using Tenable and Prisma Cloud (CNAPP); triage cloud misconfigurations and enforce compliance policy across multi-cloud environments.
- Administer CrowdStrike Falcon as the enterprise EDR/AV platform — tuning behavioral detections, responding to endpoint alerts, and conducting threat hunts for advanced adversaries.
- Conduct inbound email threat analysis via Proofpoint TAP & TRAP; perform access and identity investigations through the Okta Admin Portal to ensure IAM compliance.
- Administer BeyondTrust (Avecto Defendpoint) for privileged access management (PAM) across enterprise endpoints; enforce least-privilege policies to reduce the attack surface.
- Manage Palo Alto NGFW/IPS via Panorama for traffic analysis, policy enforcement, and perimeter security monitoring.
- Deploy Infoblox BloxOne for DNS-layer threat detection and IOC blocking; manage threat indicators via MISP (Malware Information Sharing Platform).
- Utilize MetricStream AI-powered GRC solution for Threat Register management, risk tracking, and compliance reporting aligned to business risk appetite.

- Coordinate vendor security engagements, lead tabletop exercises, and support security awareness programs across the organization.

Senior System Administrator – Vulnerability Management | **Oracle India Private Limited** *April 2019 – March 2021*

- Owned the enterprise vulnerability management lifecycle — conducting scheduled and on-demand scans using Qualys, triaging findings, and issuing risk-based remediation recommendations to system owners.
- Produced executive-level security reports on critical vulnerabilities across global Oracle business units; managed exceptions for legacy and end-of-life systems in coordination with stakeholders.
- Designed and implemented a manual risk assessment process leveraging CVSS scoring to prioritize high-impact vulnerabilities for immediate remediation action.
- Collaborated with system owners to build and track vulnerability mitigation plans, minimizing exposure windows and reducing mean time to remediate (MTTR).
- Monitored threat intelligence feeds for emerging CVEs and applied applicable vendor patches and compensating controls proactively.
- Worked closely with security vendors to expedite resolution of critical, high-priority issues, minimizing service downtime and business impact.

Senior Engineer – Analyst | **Fiserv India Private Limited** *August 2015 – April 2019*

- Conducted comprehensive security assessments across server, endpoint, and application layers using Microsoft System Center Suite; delivered actionable remediation recommendations to stakeholders.
- Served as the single point of contact (SPOC) during the global WannaCry ransomware incident — assessed exposure, orchestrated emergency patching, and ensured environment integrity across distributed endpoints.
- Managed global vulnerability and secure configuration management services, including scan coverage targets, workflow-tracked findings, documentation, reporting, and continuous service improvement.
- Prepared detailed compliance and security reports covering vulnerability analysis, OS/application security posture, and remediation guidance aligned to regulatory requirements.
- Maintained antivirus infrastructure and policy deployments to ensure endpoint protection compliance across distributed environments.

Technical Consultant | **Fujitsu Consulting India** *September 2012 – August 2015*

- Led security remediation efforts including obsolete OS/application detection and migration planning, with comprehensive project documentation and stakeholder reporting.
- Administered McAfee ePolicy Orchestrator (ePO) — managing DAT updates, AV engine upgrades, and security content deployments to keep managed systems secure and compliant.
- Managed SCCM-based OS and software deployments, including monthly security patch rollouts and configuration change tracking with detailed reporting.
- Participated in Work Area Recovery (WAR) drills, contributing to disaster recovery and business continuity preparedness across the organization.
- Performed moderately complex systems and database administration tasks with a focus on security hardening and operational stability.

CERTIFICATIONS

- Certified Ethical Hacker (CEH) Master v13 — *EC-Council*
- Certified in Cybersecurity (CC) — *ISC2*
- Tenable.sc Specialist — *Tenable*
- BeyondTrust Certified Administrator – Endpoint Privilege Management — *BeyondTrust*
- SIEM Fundamentals – Google Chronicle — *Google SecOps*
- Network Security Fundamentals — *Palo Alto Networks*
- Foundations of Cybersecurity — *Google*
- ITIL V3 Foundation — *PeopleCert*

EDUCATION

PG Diploma in IT Infrastructure Systems & Security (PG-DITISS) *2012*
Centre for Development of Advanced Computing (CDAC)

Bachelor of Technology – Information Technology *2011*
Dr. A.P.J. Abdul Kalam Technical University

AWARDS & RECOGNITION

- The Synergy Champion Award — BMC Software
- Annual Achievers Award — Fiserv India
- Spotlight Award — Fujitsu Consulting

LANGUAGES & ADDITIONAL INFORMATION

Languages: English (Proficient) • Hindi (Native) • Bengali (Native)
Key Strengths: Excellent written & oral communication • Strong analytical & problem-solving skills • Intellectual curiosity & attention to detail • Technological awareness & innovative thinking
